

CITY OF HAMILTON

PUBLIC WORKS DEPARTMENT

TRANSPORTATION OPERATIONS & MAINTENANCE DIVISION

TRANSPORTATION OPERATIONS SECTION – LOCATION – 1375 UPPER OTTAWA ST)

SENIOR PROJECT MANAGER TRANSPORTATION ENGINEERING – LRT INTEGRATION – NON-UNION

SUMMARY OF DUTIES

Reporting to the Manager of Transportation Operations, the Senior Project Manager Transportation Engineering – LRT Integration will provide leadership in a multi-functional workforce engaged in delivery and direction of services to the public and internal clients. Recommends improvement strategies in the delivery of services to meet mandated goals and objectives with the successful delivery of the light rail transit project (LRT).

Accountable for ensuring that transportation engineering initiatives associated with LRT are delivered in accordance with City and Provincial guidelines through effective and efficient use of financial and staff resources. Using a "best practices" approach, develops and delivers quality services in a timely and cost-effective manner.

RESPONSIBILITIES

The Senior Project Manager will assume responsibility for the planning, delivery and administration of various technical and research duties related to transportation engineering associated with LRT including; evaluation, , design, design reviews, approvals, coordination, integration, implementation, and commissioning of traffic control devices inclusive of traffic control signals, PXO's, warning beacons and traffic management devices. The Senior Project Manager will also be responsible for pavement marking designs, signage and alternative transportation facilities (such as cycling) located within the municipal right-of-way associated with the LRT project. Further the Senior Project Manager shall liaise with the City's Light Rail Transit office and Metrolinx as required.

GENERAL DUTIES (INCLUDING, BUT NOT LIMITED TO)

Undertake, review, direct and administer traffic signal design, installation and maintenance upgrade projects associated with LRT as assigned: the preparation of drawings and documents for the construction and modernization of new and existing traffic signals, pedestrian control devices, integration, commissioning and project close-out/as-constructed records.

Review/approve drawings and documents for the construction and modernization of new and existing traffic signals, pedestrian control devices, pavement markings, signage and other infrastructure associated with LRT undertaken by external agencies.

Act as a representative of the Transportation Operations & Maintenance Division on the LRT Project, ensuring that work meets or exceeds City standards, integrates with existing infrastructure and considers operations and maintenance needs.

Utilize formal project management strategies and examine internal/external capacities and capabilities regarding delivery of the workplan.

Research, evaluate and develop equipment specifications, issuance of tenders, and making recommendation on procurement strategies and awards.

Instil a customer service focus in all activities. Attain and maintain currency with evolving standards and community and industry trends and best practices.

Recommend policy and improvement strategies in the delivery of services to meet mandated goals and objectives.

Job Description #: A13750

Set above average standards including meaningful performance and financial metrics and standards. Report to the management team, on a regular basis regarding the team's performance, fulfilment of workplans and other similar information.

Actively facilitate proactive consultation and needs assessments with Transportation Systems, Traffic Operations, Street Lighting and other pertinent internal and external stakeholders for the planning, design, execution and commissioning of initiatives to ensure that they deliver a mutually beneficial and acceptable outcome.

You will be responsible for ensuring through liaison with the service delivery group that the desired end product quality, quantity and timeliness is achieved. This program is vital to maintaining the safety and mobility for the residents and businesses of the City of Hamilton and is a key element in the economic health of the city.

The Senior Project Manager is accountable to the Manager of Transportation Operations for ensuring that the transportation infrastructure related to the LRT project is provided in accordance with City and Provincial guidelines, in the most effective and efficient method possible, and in a manner consistent with the City of Hamilton Mission, Vision, Values and Goals.

Participates in external communication and consultation processes by: attending or chairing various technical ad-hoc committees, and public meetings as required, acting as traffic technical expert and providing representation or comments as required to regional police, municipal staff and community groups, maintaining liaison with regional police regarding transportation regulation enforcement matters, receiving and answering inquiries from other departments, public, elected officials, contractors, lawyers, etc.,.

Manage the operations and projects within the group to ensure safety, service quality, cost-effective and timely delivery of services, and environmental and legislative compliance. Conduct regular internal safety audits of direct reports and work areas.

Prepare or review, as required, technical reports arising out of this area of responsibility for presentation to senior management, members of City Council, City Committees and the public.

Ensure compliance with Provincial and Federal statutes and regulations and Municipal by-laws and policies, with specific regard for the Occupational Health and Safety Act.

Assist in the development and monitoring of annual operating and capital budgets.

Continually investigate alternate techniques and technologies to ensure that optimum methods are being utilized. Utilize continuous improvement strategies to guide these efforts.

Design new policies, procedures and standards and monitor outcome.

Manage external contractor and consultant evaluation processes and operational contracts.

Attend meetings to represent the group, section or division and present information or plans of action to elected representatives, the public, police, media, other municipalities, technical organizations and outside government bodies. Respond to members of the public, elected representatives and other agencies verbally, electronically and in writing. Participate in legal proceedings on behalf of the City.

Provide leadership and coaching through consultation with an effective supervisory and administrative team.

Develop and empower staff through delegation of responsibilities and accountabilities, through regular feedback, and by providing development opportunities and technical direction.

Promote teamwork and integration between groups within the section and with other parties participating in cross-functional and cross-program initiatives.

Provide professional consultation, including reports, to the Superintendent, Manager, Director and/or General Manager.

Job Description #: A13750

Act on behalf of Manager in their absence on departmental management team or other assignments as delegated.
